Claims Review (MCA 53-6-111, ARM 37.85.406)

The Department is committed to paying Medicaid provider's claims as quickly as possible. Medicaid claims are electronically processed and usually are not reviewed by medical experts prior to payment to determine if the services provided were appropriately billed. Although the computerized system can detect and deny some erroneous claims, there are many erroneous claims which it cannot detect. For this reason, payment of a claim does not mean that the service was correctly billed or the payment made to the provider was correct. Periodic retrospective reviews are performed which may lead to the discovery of incorrect billing or incorrect payment. If a claim is paid and the Department later discovers that the service was incorrectly billed or paid or the claim was erroneous in some other way, the Department is required by federal regulation to recover any overpayment, regardless of whether the incorrect payment was the result of Department or provider error or other cause.

Getting Questions Answered

The provider manuals are designed to answer most questions; however, questions may arise that require a call to a specific group (such as a program officer, Provider Relations, or a prior authorization unit). The list of *Key Contacts* at the front of this manual has important phone numbers and addresses pertaining to this manual. The *Introduction* chapter in the *General Information For Providers* manual also has a list of contacts for program policy information. Medicaid manuals, notices, replacement pages, fee schedules, forms, and much more are available on the *Provider Information* website (see *Key Contacts*).
